Loan Connected with the Scheme for water supply to the Tuticorin Town

From

The Secretary, Co-operative Department

No. 230 Dated 28. 11. 1924 Received 9. 12. 1924

Diary No. 3735	Enclos	Spare Copies.	Serial No. 1

BRIEF ABSTRACT OF LETTER.

Requests that as suggested by the Loan floated for the Tuticorin water supply Scheme be made by Government through the State and that the interest on the Loan be exempted from the usual cess

NOTES AND ORDERS.

The loan may perhaps be advantageously floated as suggested by the Whole State as already suggested in the forwarded by 22nd August 1924

2) As regards exempting from income-tax the interest payable on the loan, may the question be referred to the Board for opinion

3) As regards exemption from Judgments Attachment, as the Members mentioned in the notes of the Registrar (Co-operative) may also be considered

Sir

Adverting to Government Order No L 1566-7/M1 152-23-2 dated 22nd August 1924 approving the prospectus for the floatation of the loan to the water supply scheme of the Tumkur Town Municipality I have the honour to state that the approved prospectus was placed before the special meeting of the Municipal Council held on the 20th November 1924 and it was resolved that the loan be extended to the whole Mysore Province as suggested by Government and further resolved that the Government be requested to exempt the interest from income-tax

I therefore request that the matter may kindly be placed before Government and sanction obtained for extending the loan in the whole Mysore Province and also exempt the interest from income-tax

A copy of the resolution of the Municipal Council is herein enclosed for your kind perusal

I have the honour to be

Sir

(Through the Deputy Commissioner, Tumkur District, Tumkur)

Sir,

With reference to Government Order No I 1566-7/ M1 152-23-2 dated 22nd August 1924 approving the draft prospectus for floating up loan in connection with the water supply scheme of the Tumkur Town Municipality, I have the honour to state that the denomination of loan bonds are very small and for which a saparate establishment has to be maintained for this purpose Just now the money market is also very stingent and therefore the Council have resolved in their special meeting held on the 9th instant a request be made to Government to take up the loan to the extent of one lakh on behalf of this Municipalty

Under the above circumstances I request that the matter may kindly be placed before the Government and sanction obtained for the same

A copy of the resolution of the special meeting of the Council is herein enclosed for your kind perusal

practically all supplies it may receive even if the irrigation sluice is raised and a capacity of 150 units is reserved in the interests of water supply requirements.

Under these circumstances, a sum of ₹ 15,000 only for compensation for 50 acres of land or about ₹ 20,000 ought to suffice.

3. Government therefore desire that the estimate sanctioned for water supply to Tumkur Town be revised by reducing the amount provided under compensation to about ₹ 15,000.

4 The enclosures are herewith returned.

I have the honour to be,

Chief Engineer of Mysore,
B a n g a l o r e.

SIR

With reference to your letter No 7597 dated the 18th November 1924, re the compensation payable for the conversion of wet lands under the Maidala tank into dry in connection with the Tumkur Water Supply project, I have the honour to state that Gov ment observe as follows:-

The quantity required for water supply to Tumkur town, 50 units, is very small compared with the capacity of the tank, 1,001 units, and the expected yield from the catchment is 400 in very bad years to 1,500 units in very good years It is no doubt necessary to raise the irrigation sluice so as to reserve units But the estimate is prepared on the basis that because units is proposed to be reserved, compensation may be necessary 150 acres of land, and ₹ 45,000 has accordingly been provided in estimate under compensation The annual requirement of the Water Supply is only 50 units and it is only this quantity that not be available for irrigation annually, and hence only a ing area of atchakat has to be compensated for. The permanent reserve of 150 units below the irrigation sluice does not aff irrigation, because the tank has sufficient capacity left to
